

SAVE SSSSSS ON TRANSPORTATION AND DISPOSAL COSTS

ECOFIBER[®] SLUDGE CONDITIONER

**EcoFiber[®] for whatever your project entails;
Waste Water Treatment Plants, Cleaning Tanks
or Waste Minimization/Disposal Options.**

EcoFiber[®] is manufactured from natural recycled materials enhanced for superior absorption to minimize the amount of waste produced while allowing for economical and environmentally friendly disposal.

See how EcoFiber[®] cut total disposal pounds from 26,000 lbs. to under 9,000 lbs. for the same 1,000 liquid gallons of sludge and passing all the tests. Go to www.ecosorb.com/ecofiber to view our 55-second video.

**Contact your NORA member manufacturer,
lsvoboda@ecosorb.com, now to save money and
save up to 75% on disposal cost.**
